Over 5000 cleaning machines worldwide

With **intense evo®** SEITZ presents the next generation of modern solvent technology – powerful, gentle and economical at the same time.

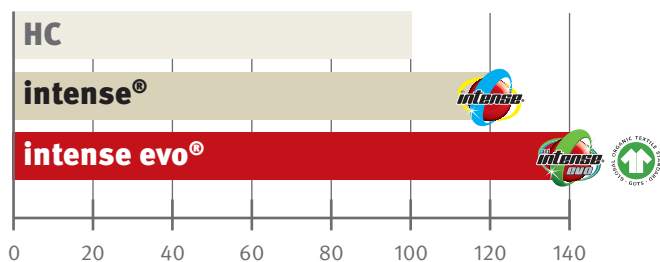

The newly developed formula penetrates deep into the fibres, reliably dissolving even stubborn stains while preserving the natural structure of the fabrics. **The result:** visibly clean, smooth and colour-intensive textiles with a pleasantly soft feel. Black appears richer, white retains its luminosity – just like on the first day.

The cleaning process also benefits: **intense evo®** is energy-efficient, shortens drying times and is gentle on the machine thanks to its stable formulation. The subtle, fruity fragrance emphasises the freshness of the cleaning result and dissipates completely after finishing.

Property	HC	intense®	intense evo®
Solvent power:	26 KB	73 KB	165 KB
Density:	0,78 g/ml	0,79 g/ml	0,82 g/ml
Flash point:	61°C	> 64°C	> 64°C

Transport: Europe/worldwide	Not a hazardous material	Not a hazardous material	Not a hazardous material

intense evo® stands for precise cleaning, maximum material compatibility and modern efficiency – developed for businesses that want more than just clean textiles.

Relative stain removal (HC = 100%)

Solvent

intense® Solvent –

Halogen-free solvent with excellent dissolving power for oil- and water-based stains.

Booster

Sigma intense® –

Cleaning enhancer with freshness system specially developed for **intense®**

Booster

Sigma Clear –

cleaning booster specially developed for the solvent **intense®**. Contains antistatic components that improve handling.

Universal brushing agent

Polysol KVV –

for pre-stain removal of particularly stubborn stains. Dissolves and softens wet and greasy stains.

Stain removers/Spotting agents

Solvex 1 - 2 - 3 –

effective stain removers for pre- and post-stain removal. Suitable for **intense®** and all HC-based solvents.

Synthetic resin finish

Nova Finish® –

easy-to-dose dry finish. Universally applicable to all woven and knitted fabrics made from natural and synthetic fibres.

A new generation of professional solvents

The Advantages:

- Deep cleaning, intensive and extremely effective
- Impressive dissolving power, even with stubborn oil- and water-based stains
- Makes textiles visibly smoother and significantly reduces ironing effort
- Preserves and intensifies colours – black looks richer, white looks brighter
- Gentle on fabrics, reduces creasing and ensures a pleasantly soft feel
- Has a fresh, subtly fruity fragrance that completely dissipates after ironing
- Gentle on machines – cleans efficiently with shorter cycle times and lower energy consumption
- Excellent solubility for water-based stains
- Reduces pre- and post-stain removal, saving time and money
- Halogen-free solvent without CMR substances – Easy disposal via traditional HC channels

The powerhouse for cleaning machines. Clean – Feel – Hang

EVO-SOLUTION

The fresher company.

SIMPLY SWITCH – IMMEDIATELY BETTER CLEANING

Your machine, our solvent. A perfect team.

Let SEITZ convince you – you will see the difference from the very first day of cleaning!

With **intense evo®** you can enjoy the benefits of state-of-the-art solvent technology without having to replace your existing equipment. Your current **Class III-A** cleaning machine can be converted into an **intense evo®** machine through a simple conversion process.

When switching from **intense®** to **intense evo®**

- there is no need to dispose of the existing solvent
- no prior maintenance of the machine is necessary
- after the conversion, simply refill **intense evo®** and immediately benefit from the improved cleaning performance

**intense evo® powerful in effect,
gentle in application.**

**intense evo® – the evolution
of professional textile cleaning**
